

**11897 Tammy Way • Grass Valley, CA 95949 • (530) 273-2010**

Greetings Alta Sierra Country Club members and community:

**GOLF:** We are slowing down just a little but still doing fine. As I said last month we had a very hot hot summer, we feel the course has held up well, looking forward to the rain and of course we would love to have it rain at night and we play golf during the day.

**EVENTS:** We are still working hard to increase our activities in the event area, and we have many events scheduled for the next few months, from weddings to Celebrations of life. If you are thinking of having a party or whatever give Sandy a call 530-273-2041.

**OVERALL:** We are still waiting for our new lawn mower to arrive. It was due in August, then September, then October, hopefully we will get it as a Christmas present to the club. We have spent about \$18K removing diseased trees and we may have more in the future. We also repaired the shack that our equipment is stored. How it stayed upright is beyond belief, I don't think it has been looked at for many many years. That was a few thousand dollars so far. We have more repairs to do in that area, however we will work on that next year. We need to make sure that we show a good positive P&L so we can hopefully get some long-term financing in the first part of 2022. That will allow us the flexibility to do repairs that are needed. We hope to remove the old carpeting in the dining room the first of the year. Financially speaking we are holding our own.

We are in the process of getting a solar system that will reduce our expenses and if we can do it, we should be active within the next few months. We recently changed propane companies that should reduce our expenses by approximately .40 cents a gallon. We checked that out to make sure that we made the correct decision. We are saving about .45 cents per gallon.

Our restaurant is still working with a limited staff, and we started our Monday night football and bingo. Please be patient we are trying to do the best that we can with the limited staff that we have. We are working on getting more staff. Speaking of the restaurant we had a great time on the 3rd of December's Christmas party. The staff did a fantastic job with the food, dessert and the DJ music. If you didn't join us you missed a very good time.

Please remember to get your reservations in for our New Year's party. I was told that it will be better than our Christmas party, I don't know how it could be better, but if it is then you will really be upset if you do not get to the party.

We are now in the winter times, so every day that we can play golf please do so. We also need a very wet winter to fill up our reservoirs so we can have water in the summer months to keep our course green and ready for play.

We trust that you had a fun summer with good health and happiness. We wish you a very Merry Christmas, happy holidays and a great New Year.

Thank you,

Charlie Ewing, President
